I just sent a note to David and Pat. I'll forward to you. There is a difference of a year between the two methodologies. Take a look at the note, and let me know if you have questions.

Cathy,
 Thanks,

This stuff is pretty complicated what with cash versus GAAP and a mix of % and per sub calculations. Approximately \$1.50 should be close enough for now.

Have you figured out a revised date for when the pool is full?

Brian:

See calc below. I think this fairly represents how we would model the full recovery of royalties on a primary post 8/1/2011 assuming that rate went to \$14.95. It will be slightly off because of ad sales, so if you want to round up to ~\$1.50, that would be ok. SESAC is allocated based on the total number of subscribers in 2011.

Calculation of Rates based on Estimated Aug 2011 Pricing (100% Recovery of Royalties)

Primary	Rate	Pre '72 Adj	Other Adj		Primary Rate	Net Rate
RIAA	7.50%	10.75%	2.44%		\$14.95	\$0.97
ASCAP	1.44%		15.00%		\$14.95	\$0.18
BMI	1.44%		15.00%		\$14.95	\$0.18
SESAC						\$0.02

RIAA	7.50%	10.75%	2.44%		\$1.36	\$0.09

Hmmm. It would seem cash collected but really your issue.

I still need confirmation of what a sub would be paying based on actual price, not ARPU after 8/1/2011. Can you plan on getting that to me tomorrow also? Thanks!

In that case, hopefully I will NOT get invited to the offsite.

I had a conversation with David on the reporting and a couple of other items around MRF. I have a few follow ups which are going to take me a couple of days. Once I have all my information together, hopefully sometime Tuesday afternoon, I'll provide you with an update. The single biggest item that I'm researching is whether we should be measuring our recovery of the pool based on earned (GAAP) MRF or cash collected? Everything Matt has done to date has been based on GAAP, so a decision to go with cash collected could have a big impact on the recovery date.

BTW,

Jim and I had a discussion this AM where he basically suggested that we come into the offsite with an in your face proposal to drop tiered programming, keep and use MRF as part of pricing strategy, raise the base price to \$14.95 and so on as we discussed. I am planning on wearing my leather motorcycle jacket and full face helmet.

Thanks for all your help this week!!

A NATIONWIDE SAMPLING OF LAW FIRM BILLING RATES

The National **Law** Journal asked the respondents to its **2008** survey of the nation's **250 largest law firms** to provide a range of hourly **billing rates** for partners and associates. **Firms** that supplied this information — including some **firms** that are not in the NLJ 250 — are listed below in alphabetical order. We also asked **firms** to provide average and median **billing rates**, and several complied. The number after a **firm's** name indicates the total number of attorneys at the **firm**. The city listed below the name of a **firm** is the location of its principal or **largest** office.

Billing Survey

A NATIONWIDE SAMPLING OF LAW FIRM BILLING RATES

The National Law Journal asked the respondents to its **2009** survey of the nation's **250 largest law firms** to provide a range of hourly **billing rates**. **Firms** that supplied the information -- including some not in the NLJ 250 -- are listed in alphabetical order.

[Note: The following table/form is too wide to be printed on a single page. For meaningful review of its contents the table must be assembled with part numbers in ascending order from left to right. Row numbers, which are not part of the original data, have been added in the margins and can be used to align rows across the parts.]
